Synopsis:

Fury is an American film, which is set during the 2nd world war (1945). The story starts with the commencement of Allies where they make a final push in the European Theatre, a battle-hardened army sergeant named Wardaddy (Brad Pitt) commands a Sherman tank and her five-man crew on a deadly mission behind enemy lines. Out numbered and out gunned, and with a rookie soldier thrust into their platoon, Wardaddy and his men face overwhelming odds in their heroic attempts to strike at the heart of Nazi Germany.

Review:

The story revolves around the American Soldiers who work hard during in the Europe during the 2nd world war. It is whole macho film, The film is carried by the allies, who flaunts their muscularity. Though it is based on fiction but the characters are true. It is a saga. The battle field sequences are authentic and it takes the viewer in the real battle for glory. Brad Pitt is an amazing

like always.

The title is derived from a Sherman M4A2E8 tank. The letters "F-U-R-Y" have been painted in white on the cannon. It's got an almost prehistoric grandeur. The first part is intriguing, the part showcases the importance of winning the battle and to win it parents involve their kids, which I don't think would have happened in actual war. The second part is little bit draggy as so history seems to be boring sometimes. But still the director has conceptualized it beautifully. It will ne wrong to compare this film with Spielberg's Saving Private Ryan . Both have similar story lines, but the techniques are different.

Fury at times looks jerky and sounds noisy, especially the war scenes. The slaughter of men and shedding of too much blood is not decently screened. The story of the film divided into bits and pieces with suspenses. If you have an interest in history will definitely like the film. Kids may not like because its quite noisy. The film has been released in the United states, Jamaica and soon it will release in the United kingdom.

After Fury Brad Pitt will be seen in another Hollywood film the name of the film is not disclosed, but that's for sure that will get to see something interesting.
